The Charlestown Youth Sports Collective formed earlier this year in large part to better advocate as a group for better access to field and facilities space. We've been an active supporter of a Master Plan for Charlestown in order to better address these needs for our current and growing programs. We stand with the Charlestown Preservation Society, the Charlestown Neighborhood Council (where we hold a non-profit seat), the Charlestown Mothers Association and other community groups in calling on the BDPA and our elected representatives to initiate a formal Master Plan for Charlestown.

Group Representatives in order as groups appear above:
